

VICTOR AGBI

PROFESSIONAL SUMMARY

Dedicated Software Developer with experience in React.js, TypeScript, JavaScript, and modern frontend technologies. Skilled in building scalable web applications, collaborating with cross-functional teams, and managing projects using Agile methodologies. Experienced in project management, software development, and Generative AI technologies. Passionate about creating innovative digital solutions and continuously improving technical expertise

WORK EXPERIENCE

Nexora Digital Lab, Lagos, Dec 2024 - Current

Junior Software Developer

- Develop responsive and scalable web applications using React.js, TypeScript, JavaScript, HTML5, and CSS3.
- Build and maintain reusable UI components using Tailwind CSS and Material UI.
- Integrate frontend applications with RESTful APIs and backend services.
- Collaborate with designers and senior developers to deliver high-quality software solutions.
- Participate in code reviews, debugging, testing, and deployment activities.
- Develop AI-powered applications and assist in the integration of Generative AI tools into web platforms.
- Utilize Git and GitHub for version control and team collaboration.
- Contribute to software architecture discussions and feature planning.

Touch And Pay Technologies (TAP), Lagos, Feb 2021 - Nov 2024

Project Manager /Junior Software Developer

- Led cross-functional teams in the delivery of software projects and digital solutions.
- Managed project workflows using Jira and Trello, ensuring timely delivery of milestones.
- Participated in stakeholder meetings, requirements gathering, and technical planning sessions.
- Prepared project proposals, documentation, and progress reports.
- Developed and maintained frontend applications using React.js, JavaScript, TypeScript, and Redux Toolkit.
- Built responsive user interfaces and integrated APIs for enterprise applications.
- Collaborated with product owners, designers, and backend engineers to deliver scalable solutions.
- Contributed to the development of a utility consumption management platform that enabled customers to:
 - Monitor utility consumption.
 - Pay bills online.
 - Update profile and payment information.
 - Developed administrative dashboards for customer management and system monitoring.
 - Played a key role in implementing a bulk billing system with secure payment integrations.
